

A wide-angle photograph of the Machu Picchu archaeological site in Peru. The terraced stone ruins are built into a steep, green mountain slope. In the background, jagged mountain peaks rise under a bright blue sky with scattered white clouds. The foreground shows more terraces and a dirt path on the right side.

Photography

A scenic view of the ancient Inca city of Machu Picchu, nestled high in the Andes. In the foreground, two white llamas are looking out over the city. The city itself is built on a steep, terraced hillside, with stone walls and buildings visible. In the background, the jagged peaks of the Andes rise under a sky filled with large, white clouds. The overall scene is one of natural beauty and historical significance.
