The image shows two ancient, cylindrical stone towers built into a reddish-brown rock cliff. The towers are constructed from light-colored stone with horizontal bands of darker bricks. They have numerous small, circular openings and a larger rectangular entrance at the base. The foreground is filled with green grass and yellow wildflowers. The background is the rugged, layered rock face of the canyon.

On route, you can admire archeological sites, colonial art, prehistoric history, scenic landscapes and delight your palate with a delicious Picnic lunch in one of the most amazing Andean settings, Tinajani Canyon.

A vibrant scene of traditional floating reed houses on a body of water. Several women in colorful traditional Peruvian dresses (green, yellow, orange, and pink) and wide-brimmed hats are standing on the reed platforms. The houses are constructed from woven reeds and feature thatched roofs. A prominent structure has a large, arched entrance made of reeds. In the background, a small town is visible on a hillside, and rugged mountains rise under a clear blue sky. The text "On Route" is overlaid in white, centered on the image.
